

CLOUD BASED MANAGEMENT & TOOLS FOR TECHNICIANS

Efficiently manage clients and vehicles with the innovative **EZ LYNK** Cloud from anywhere in the world. Send and receive data to lynked vehicles in real-time. Just open your browser and **GO!**

EZ LYNK CLOUD DATA MANAGEMENT & SHARING

AUTO LYNK QUEUE

Users can automatically lynk their vehicles with you when their VIN or AutoAgent™ serial number is added to your auto lynk queue.

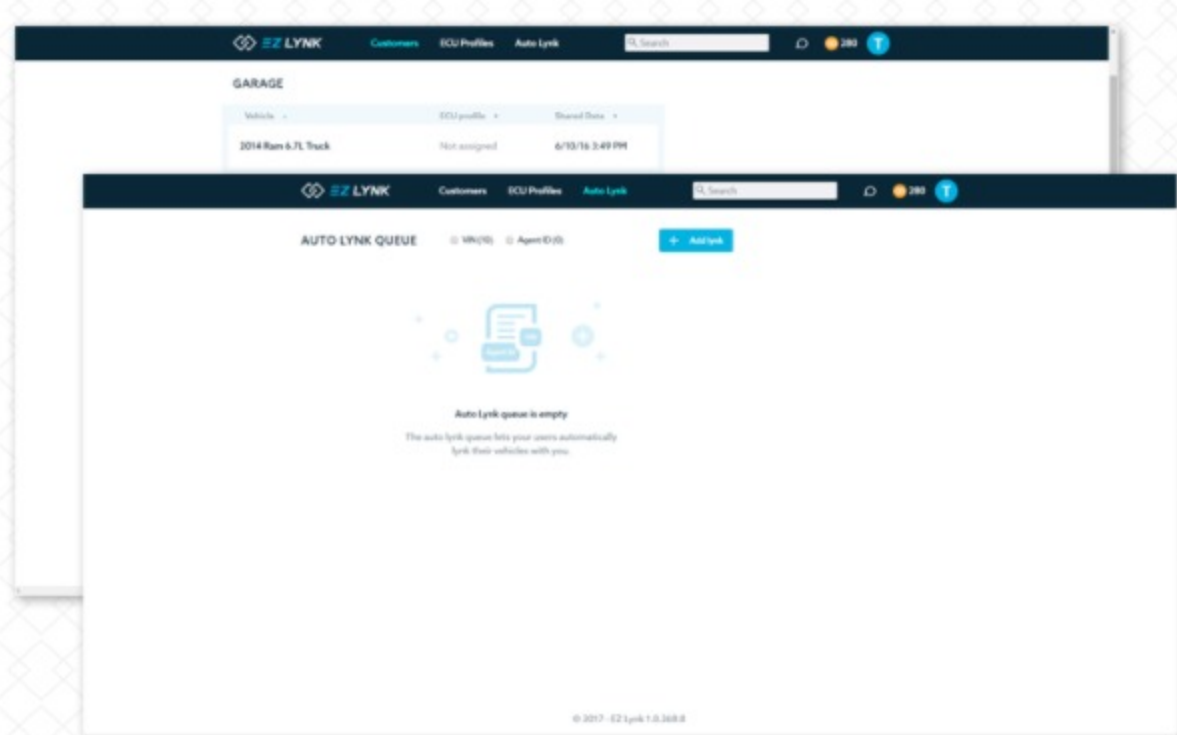

AUTO SHARE ECU PROFILES

Enable auto share from a vehicle's description to make ECU profiles with a matching Cal ID instantly available to the user.

EZ LYNK TOKENS

Tokens are used to unlock cloud sharing. 0 tokens are required to receive data. 10 tokens are required to permanently send *and* receive data.

DATALOG PLAYBACK REAL-TIME TROUBLESHOOTING

30 MINUTES OF DATA

Playback up to 30 minutes of data in a convenient graph timeline.

PARAMETER SELECTION

Select specific parameters to isolate relevant troubleshooting data.

DATA HIGHLIGHTS

Review time-stamped bookmarks with user added comments.

TIMELINE CONTROL

Zoom and adjust playback speed to monitor data more efficiently.

ECU PROFILE EDITOR LIVE SOFTWARE ADJUSTMENTS

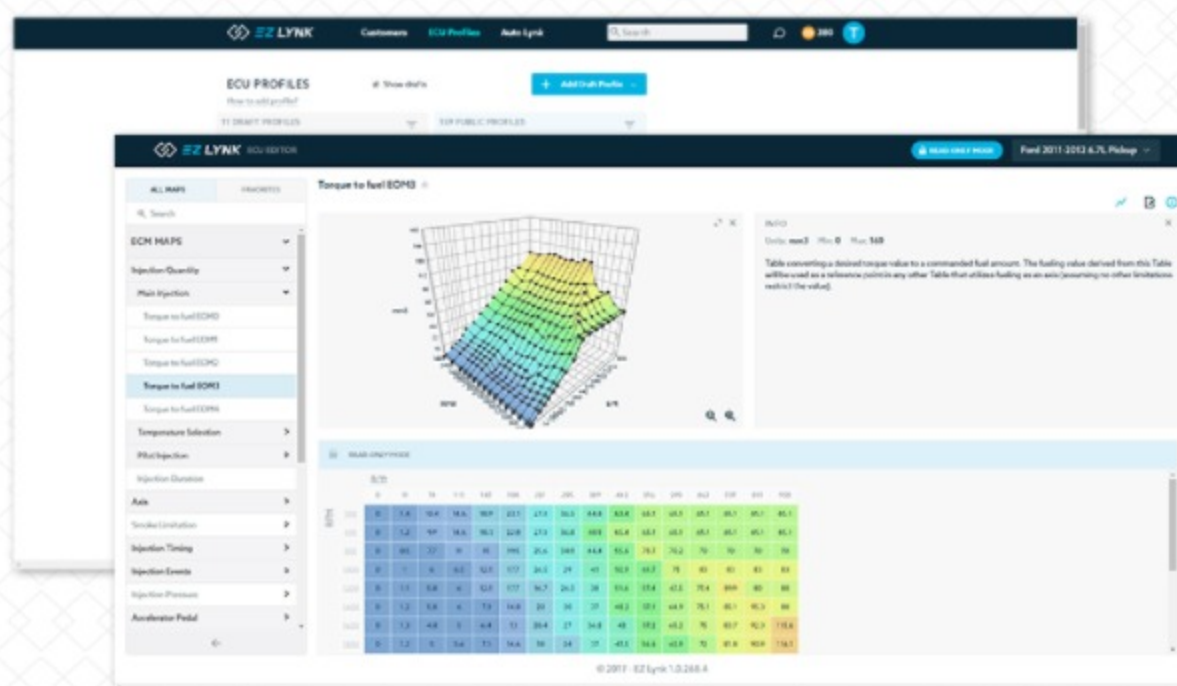

MULTIPLE PARAMETER DISPLAYS

View and adjust map parameters from scaled graphs or advanced data tables.

QUICK ACCESS FAVORITES

Add maps to your favorites for quick access and faster adjustments.
